

EVERGREEN A-44

Contents Cleaning Goes Green!
Formulated for Ultrasonic Cleaning
All-Natural Cleaner Degreaser
Biodegradable & Sustainable

Benefect's Botanical Evergreen A-44 is an environmentally preferable and safe solution for contents cleaning.

Formulated for use in ultrasonic content cleaning systems, Evergreen A-44 is an all-natural cleaner degreaser specifically formulated to clean contents.

A multi-purpose product, Evergreen is suitable for delicate items as well as heavy grease or sticky soils. Perfect for contents damaged by smoke, water or mold.

Designed for synergy in ultrasonic equipment, Evergreen A-44 utilizes Benefect's innovative optimized dynamic chemistry & counter ionization to deliver rapid penetration and ultra-fine dispersion of the soils. The ultrasonic technology is the catalyst that makes the process extremely efficient, saving time and labor in cleaning contents.

Safe Ingredients for Operators

Evergreen A-44 is a low pH alternative to synthetic degreaser products, making it safe to touch skin and non-corrosive. Evergreen A-44 doesn't contain any solvents or VOCs that would pose an inhalation risk in indoor environments. Made with only naturally occurring and biodegradable ingredients makes it the sustainable choice for contents cleaning.

Perfect For: Contents cleaning in all Ultrasonic Equipment machines. Reach out directly to your equipment manufacturer for specific dilution requirements.
